The screenshot shows the 'Event Tracking System' interface. At the top, there is a header for the 'Department of Computer Applications, Kongu Arts and Science College (Autonomous), Nanjanapuram, Erode - 638 107.' Below the header, there is a search bar and a dropdown for 'Entries per Page' set to 10. A table lists 7 events with columns for S.No., Event Type, Name of the Event, Name of the Guest, Date & Session, Venue, and Beneficiary. Each row has a 'Feed Back' button. A 'Login' button is visible in the top right corner. The footer shows '© 2016 Department of Computer Applications'.

Event Management - Database

The screenshot shows the phpMyAdmin interface for a database named 'event'. The left sidebar displays a tree view of databases, including 'event', 'information_schema', 'laravel_bca_app', 'mysql', 'oes', 'performance_schema', 'phpmyadmin', 'pro', 'railway', 'test', and 'webauth'. The main area shows the 'Structure' tab for the 'event' database, listing 7 tables: event_batch, tblevent, tbleventlist, tbleventlogin, tblfeedback, tblvenue, and test. Each table row includes icons for Browse, Structure, Search, Insert, Empty, and Drop, along with the number of rows, storage engine (InnoDB), and collation (latin1_swedish_ci). A 'Create table' dialog box is open, with fields for 'Name' and 'Number of columns', and a 'Go' button. The bottom of the image shows a Windows taskbar with various application icons and a system tray displaying the time as 10:40 PM on 8/23/2021.
